NOTE: Where possible, try to affix to a stud or provide adequate wall support for the size and weight of the mirror. Mirror comes with pre-attached brackets on the frame and a wall mount rail. Affix the rail to the wall in the desired location by pre-drilling the rail and then affixing the rail using the proper fastening, based upon wall material.

CARE AND CLEANING

- To maintain the beauty of the finish, avoid placing the furniture in direct sunlight, as sunlight causes fading. Also avoid extreme changes in temperature by arranging furniture away from radiators, heat and air vents, and air conditioning units. Avoid placing furniture directly under windows.
- Clean the mirror using a soft, slightly damp cloth. When cleaning the mirror, spray the mirror with a glass cleaner and wipe clean.
